Geometry: Ancient and Modern

John R. Silvester

Geometry: Ancient and Modern John R. Silvester
This book is a guided tour of geometry, from Euclid through to algebraic geometry. It shows how mathematicians use a variety of techniques to tackle problems, and it links geometry to other branches of mathematics. It is a teaching text, with a large number of exercises woven into the exposition. Topics covered include: ruler and compass r s1tructions, transformations, triangle and circle theorems, classification of isometries and groups of isometries in dimensions 2 and 3, Platonic solids, conics, similarities, affine, projective and Mobius transformations, non-Euclidean geometry, projective geometry, the beginnings of algebraic geometry.

From reader reviews:

Brian Wilson:

Inside other case, little individuals like to read book Geometry: Ancient and Modern. You can choose the best book if you'd prefer reading a book. Providing we know about how is important any book Geometry: Ancient and Modern. You can add knowledge and of course you can around the world by the book. Absolutely right, since from book you can realize everything! From your country until foreign or abroad you can be known. About simple factor until wonderful thing you could know that. In this era, we can easily open a book as well as searching by internet product. It is called e-book. You need to use it when you feel uninterested to go to the library. Let's study.

Mindy Hicks:

Book is definitely written, printed, or illustrated for everything. You can understand everything you want by a book. Book has a different type. As it is known to us that book is important issue to bring us around the world. Adjacent to that you can your reading talent was fluently. A book Geometry: Ancient and Modern will make you to be smarter. You can feel much more confidence if you can know about almost everything. But some of you think that open or reading any book make you bored. It isn't make you fun. Why they could be thought like that? Have you in search of best book or suited book with you?

Julie Moore:

Beside this particular Geometry: Ancient and Modern in your phone, it might give you a way to get closer to the new knowledge or data. The information and the knowledge you might got here is fresh from oven so don't be worry if you feel like an aged people live in narrow town. It is good thing to have Geometry: Ancient and Modern because this book offers to your account readable information. Do you occasionally have book but you would not get what it's interesting features of. Oh come on, that would not happen if you have this in the hand. The Enjoyable agreement here cannot be questionable, similar to treasuring beautiful island. Techniques you still want to miss the item? Find this book and read it from right now!

Darlene Goins:

As a student exactly feel bored to help reading. If their teacher requested them to go to the library or make summary for some reserve, they are complained. Just little students that has reading's soul or real their leisure activity. They just do what the instructor want, like asked to go to the library. They go to presently there but nothing reading very seriously. Any students feel that studying is not important, boring in addition to can't see colorful pics on there. Yeah, it is being complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this Geometry: Ancient and Modern can make you sense more interested to read.
