Advanced Information Systems Engineering

Advanced Information Systems Engineering
TheexplosivegrowthoftheInternetandtheWebhavecreatedanever-growing demand for information systems, and ever-growing challenges for Information Systems Engineering. The series of Conferences on Advanced Information S- tems Engineering (CAiSE) was launched in Scandinavia by Janis Bubenko and Arne Solvberg in 1989, became an important European conference, and was held annually in major European sites throughout the 1990s. Now, in its 14th year,CAiSEwasheldforthe?rsttimeoutsideEurope,showcasinginternational researchon information systems and their engineering. Not surprisingly, this year the conference enjoyed unprecedented attention. In total, the conference received 173 paper submissions, the highest number ever for a CAiSE conference. Of those, 42 were accepted as regular papers and 26 as short (poster) papers. In addition, the conference received 12 proposals for workshops of which 8 were approved, while 4 tutorials were selected from 15 submissions. The technical program was put together by an international committee of 81 experts. In total, 505 reviews were submitted, with every member of the committeecontributing.Decisionsonallsubmissionswerereachedataprogram committee meeting in Toronto on January 26-27,2002. Workshop and tutorial proposals were handled separately by committees chaired by Patrick Martin (workshops), and Jarek Gryz and Richard Paige (tutorials). We wish to extend a great “THANK YOU!” to all members of the program and organizing committees for their volunteer contributions of time and exp- tise. The fact that so many busy (and famous!) people took the trouble to help uswiththeorganizationofthisconferenceandtheformationofitstechnicalp- gram speaks well for the future of CAiSE and the ?eld of Information Systems Engineering.

From reader reviews:

Janet Roldan:

Spent a free time and energy to be fun activity to perform! A lot of people spent their spare time with their family, or all their friends. Usually they doing activity like watching television, about to beach, or picnic inside the park. They actually doing same thing every week. Do you feel it? Do you need to something different to fill your own free time/ holiday? Might be reading a book could be option to fill your no cost time/ holiday. The first thing you ask may be what kinds of reserve that you should read. If you want to attempt look for book, may be the reserve untitled Advanced Information Systems Engineering can be very good book to read. May be it might be best activity to you.

Thomas Rasmussen:

The actual book Advanced Information Systems Engineering has a lot of information on it. So when you make sure to read this book you can get a lot of advantage. The book was authored by the very famous author. The author makes some research just before write this book. This specific book very easy to read you may get the point easily after looking over this book.

Cheryl Cooley:

People live in this new day time of lifestyle always try and and must have the spare time or they will get wide range of stress from both daily life and work. So , once we ask do people have extra time, we will say absolutely without a doubt. People is human not just a robot. Then we question again, what kind of activity do you possess when the spare time coming to anyone of course your answer can unlimited right. Then ever try this one, reading guides. It can be your alternative with spending your spare time, the actual book you have read will be Advanced Information Systems Engineering.

Michael Hale:

Do you like reading a guide? Confuse to looking for your preferred book? Or your book seemed to be rare? Why so many query for the book? But virtually any people feel that they enjoy regarding reading. Some people likes examining, not only science book but in addition novel and Advanced Information Systems Engineering or perhaps others sources were given knowledge for you. After you know how the fantastic a book, you feel want to read more and more. Science reserve was created for teacher or students especially. Those books are helping them to increase their knowledge. In additional case, beside science reserve, any other book likes Advanced Information Systems Engineering to make your spare time considerably more colorful. Many types of book like this.
