Functional Programming Languages and Computer Architecture: 5th ACM Conference. Cambridge, MA, USA, August 26-30, 1991 Proceedings (Lecture Notes in Computer Science)
This book offers a comprehensive view of the best and the latest work in functional programming. It is the proceedings of a major international conference and contains 30 papers selected from 126 submitted. A number of themes emerge. One is a growing interest in types: powerful type systems or type checkers supporting overloading, coercion, dynamic types, and incremental inference; linear types to optimize storage, and polymorphic types to optimize semantic analysis. The hot topic of partial evaluation is well represented: techniques for higher-order binding-time analysis, assuring termination of partial evaluation, and improving the residual programs a partial evaluator generates. The thorny problem of manipulating state in functional languages is addressed: one paper even argues that parallel programs with side-effects can be "more declarative" than purely functional ones. Theoretical work covers a new model of types based on projections, parametricity, a connection between strictness analysis and logic, and a discussion of efficient implementations of the lambda-calculus. The connection with computer architecture and a variety of other topics are also addressed.

From reader reviews:

Richard Pease:

Reading can called thoughts hangout, why? Because when you are reading a book specially book entitled Functional Programming Languages and Computer Architecture: 5th ACM Conference. Cambridge, MA, USA, August 26-30, 1991 Proceedings (Lecture Notes in Computer Science) your mind will drift away trough every dimension, wandering in most aspect that maybe not known for but surely will end up your mind friends. Imaging each word written in a publication then become one contact form conclusion and explanation that will maybe you never get previous to. The Functional Programming Languages and Computer Architecture: 5th ACM Conference. Cambridge, MA, USA, August 26-30, 1991 Proceedings (Lecture Notes in Computer Science) giving you another experience more than blown away your mind but also giving you useful facts for your better life in this particular era. So now let us present to you the relaxing pattern at this point is your body and mind are going to be pleased when you are finished looking at it, like winning a sport. Do you want to try this extraordinary spending spare time activity?

Ladonna Warren:

Reading a book to be new life style in this year; every people loves to study a book. When you go through a book you can get a wide range of benefit. When you read guides, you can improve your knowledge, mainly because book has a lot of information into it. The information that you will get depend on what sorts of book that you have read. If you need to get information about your examine, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, this kind of us novel, comics, along with soon. The Functional Programming Languages and Computer Architecture: 5th ACM Conference. Cambridge, MA, USA, August 26-30, 1991 Proceedings (Lecture Notes in Computer Science) offer you a new experience in reading a book.

Wayne McKnight:

You may spend your free time to see this book this book. This Functional Programming Languages and Computer Architecture: 5th ACM Conference. Cambridge, MA, USA, August 26-30, 1991 Proceedings (Lecture Notes in Computer Science) is simple to develop you can read it in the recreation area, in the beach, train and also soon. If you did not have got much space to bring the particular printed book, you can buy typically the e-book. It is make you much easier to read it. You can save the particular book in your smart phone. And so there are a lot of benefits that you will get when you buy this book.

Angel Sullivan:

Many people spending their period by playing outside together with friends, fun activity using family or just watching TV 24 hours a day. You can have new activity to pay your whole day by reading through a book. Ugh, do you consider reading a book really can hard because you have to take the book everywhere? It okay

you can have the e-book, taking everywhere you want in your Cell phone. Like Functional Programming Languages and Computer Architecture: 5th ACM Conference. Cambridge, MA, USA, August 26-30, 1991 Proceedings (Lecture Notes in Computer Science) which is having the e-book version. So , try out this book? Let's view.
