Real data brings statistics to life
From opinion polls and clinical trials to self-driving cars, statistics influences and shapes the world around us. Best-selling author Marty Triola is committed to keeping ***Elementary Statistics*** relentlessly current--with an unprecedented amount of up-to-the-minute real data--so that readers of all backgrounds understand the role of statistics in the world around them. In addition to an abundance of new data sets, examples, and exercises, the **13th Edition** is designed to be even more flexible, with the addition of learning objectives as an organizational tool, larger data sets, and new topics in line with advancements in statistics. In addition, readers will find more support in an all-new series of videos, more opportunities for practice, and improved support for statistical software.

Elementary Statistics is part of a series that also includes an Essentials version as well as technology-specific texts, ***Elementary Statistics Using the TI 83/84 Plus Calculator*** and ***Elementary Statistics Using Excel*** . Data sets and other resources for this series are available at our website.

Personalize learning with MyStatLab.
MyStatLab is an online homework, tutorial, and assessment program designed to work with this text to engage readers and improve results. Within its structured environment, readers practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb the material and understand difficult concepts.

From reader reviews:

Josephine McIntire:

The book Elementary Statistics can give more knowledge and information about everything you want. Why must we leave the good thing like a book Elementary Statistics? Wide variety you have a different opinion about guide. But one aim this book can give many data for us. It is absolutely appropriate. Right now, try to closer with the book. Knowledge or data that you take for that, you can give for each other; you could share all of these. Book Elementary Statistics has simple shape but the truth is know: it has great and big function for you. You can seem the enormous world by available and read a reserve. So it is very wonderful.

Troy Cochran:

What do you regarding book? It is not important along with you? Or just adding material when you need something to explain what you problem? How about your spare time? Or are you busy person? If you don't have spare time to do others business, it is give you a sense of feeling bored faster. And you have time? What did you do? Everyone has many questions above. They should answer that question mainly because just their can do that will. It said that about book. Book is familiar on every person. Yes, it is right. Because start from on jardín de infancia until university need this kind of Elementary Statistics to read.

Kirk Mathews:

Exactly why? Because this Elementary Statistics is an unordinary book that the inside of the book waiting for you to snap the item but latter it will shock you with the secret this inside. Reading this book next to it was fantastic author who have write the book in such remarkable way makes the content inside easier to understand, entertaining means but still convey the meaning completely. So , it is good for you because of not hesitating having this any longer or you going to regret it. This amazing book will give you a lot of benefits than the other book include such as help improving your proficiency and your critical thinking approach. So , still want to postpone having that book? If I were you I will go to the guide store hurriedly.

Joel Padilla:

Are you kind of stressful person, only have 10 or perhaps 15 minute in your morning to upgrading your mind talent or thinking skill actually analytical thinking? Then you are having problem with the book when compared with can satisfy your small amount of time to read it because this all time you only find e-book that need more time to be read. Elementary Statistics can be your answer mainly because it can be read by a person who have those short extra time problems.
