The Mereon Matrix: Unity, Perspective and Paradox (Elsevier Insights)

The Mereon Matrix: Unity, Perspective and Paradox (Elsevier Insights)

Mereon is an approach to the unification of knowledge that relies on whole systems modelling. It is a scientific framework that charts the sequential, emergent growth process of systems. A dynamic structure, Mereon provides insight and a new approach to General Systems Theory and non-linear science. Mereon evolved through a new approach to polyhedral geometry and topology that is related to the dynamics of the polyhedra. It is related to a large number of systems, physical, mathematical, and philosophical. In linking these systems, Mereon provides access to new relationships among them and combines geometric and process thinking. This book provides the fundamentals of such connections for an ongoing search for order, directionality, and diversity that is found in this unity. It is written in clear language that manages to connect diverse disciplines and in doing so, makes a complex system easily accessible and understandable. It will be of interest to mathematicians, geneticists, and all those interested in researching unity in science and astrobiology.

- Elaborates on several important aspects of General Systems Theory including nonlinearity.
- Each chapter is self-contained and explained relative to Mereon, providing references to scientific findings that are congruent with or expanded by Mereon.
- Offers a new way of modelling that can be applied across the sciences.

From reader reviews:

Betty Epperson:

Book is definitely written, printed, or outlined for everything. You can recognize everything you want by a guide. Book has a different type. We all know that that book is important factor to bring us around the world. Next to that you can your reading proficiency was fluently. A reserve The Mereon Matrix: Unity, Perspective and Paradox (Elsevier Insights) will make you to be smarter. You can feel more confidence if you can know about every thing. But some of you think that will open or reading a book make you bored. It is far from make you fun. Why they can be thought like that? Have you in search of best book or suited book with you?

Jose Laney:

Hey guys, do you wants to finds a new book to learn? May be the book with the headline The Mereon Matrix: Unity, Perspective and Paradox (Elsevier Insights) suitable to you? The book was written by popular writer in this era. Often the book untitled The Mereon Matrix: Unity, Perspective and Paradox (Elsevier Insights)is a single of several books this everyone read now. This particular book was inspired many men and women in the world. When you read this book you will enter the new way of measuring that you ever know just before. The author explained their concept in the simple way, therefore all of people can easily to be aware of the core of this reserve. This book will give you a large amount of information about this world now. So you can see the represented of the world in this book.

Alejandro Colon:

The actual book The Mereon Matrix: Unity, Perspective and Paradox (Elsevier Insights) will bring one to the new experience of reading a new book. The author style to describe the idea is very unique. In the event you try to find new book to learn, this book very acceptable to you. The book The Mereon Matrix: Unity, Perspective and Paradox (Elsevier Insights) is much recommended to you to see. You can also get the e-book from official web site, so you can more easily to read the book.

Wayne Kong:

Is it a person who having spare time subsequently spend it whole day simply by watching television programs or just laying on the bed? Do you need something new? This The Mereon Matrix: Unity, Perspective and Paradox (Elsevier Insights) can be the response, oh how comes? It's a book you know. You are thus out of date, spending your free time by reading in this new era is common not a geek activity. So what these guides have than the others?
