J. Mark Locklear, Eric J Gruber

Learning Rails 5: Rails from the Outside In J. Mark Locklear, Eric J Gruber

If you’re a web developer or designer ready to learn Ruby on Rails, this unique book is the ideal way to start.

Rather than throw you into the middle of the framework’s Model-View-Controller architecture, *Learning Rails 5* works from the outside in. You’ll begin with the foundations of the Web you already know, and learn how to create something visible with Rails’ view layer. *Then* you’ll tackle the more difficult inner layers: the database models and controller code.

All you need to get started is HTML experience. Each chapter includes exercises and review questions to test your understanding as you go.
