Toward a Zero Energy Home: A Complete Guide to Energy Self-Sufficiency at Home David Johnston, Scott Gibson

A Zero Energy Home (ZEH) – a home that produces as much energy as it consumes – is an idea whose time has come! Authors David Johnston and Scott Gibson (*Green from the Ground Up*) explore the design and construction of self-sufficient houses from start to finish. They make the case for a ZEH; cite climate and geographic challenges; describe exactly how to go about building an energy-efficient home; and feature ten houses that were built for zero energy living. With unequaled knowledge and a passion for the subject, the authors walk readers through the process of building and living in a truly green home.
