Terror reigns when a string of post-op infections erupts in the sanitized halls of King s College Hospital in London. A trio of experts--Microbiology Professor Chris Rose, Jake Evans, an American infectious disease specialist, and Elizabeth Foster, a senior agent with M15--soon realize that the offending organism is a weapon in a worldwide terrorist plot. The terrorists turn their focus on an upcoming medical-legal conference, hoping to infect hundreds and subsequently ravage the global community, as well as those very doctors who might be able to find a cure. Author and physician Richard Wenzel takes us on a riveting, winding journey through Europe and the Middle East, unravels the science of infections, and opens a revealing window on the complex politics of medicine.
