English in Common is a six-level American English integrated-skills course for adult and young adult learners based on CEFR standards and learner outcomes.

Finding direction and purpose
English in Common motivates learners through Can Do objectives which give direction and purpose, ensuring students know what they are learning, why they are learning it, and how they will be able to use the language outside of the classroom.

Engaging learners' interest
English in Common engages learners' interest by offering a new twist to familiar topics -- topics that reflect students' needs and interests. This ensures that students will always have something to say about the content of the lesson.

Developing active learners
English in Common encourages active participation in learning by guiding students to use their own knowledge as they observe structures in context to figure out language use and form independently.
