Portals to Higher Consciousness:: Exploring the Spiritual Domain Norman D. Livergood
Portals to Higher Consciousness introduces the reader to the various ways we can explore the spiritual domain. But . . . how can we explore Higher Consciousness? To answer that question, author Norman D. Livergood explains that exploring the spiritual domain requires that we actually enter into and participate in that reality, not merely read about it or think about it. We must be active investigators and experimenters in the world of the spirit, not merely sight-seers, scholars, or dilettantes. The book describes the process that serious students use to actually realize--bring to manifestation--their Higher Consciousness, "through which they are able to contact Reality in a region of pure Truth. The beginning of this process is the realization 'that things are not what they seem.'" If you're interested in investigating higher consciousness, put on your hiking clothes and join this spiritual expedition.
