The Hidden Parables Todd Michael
The author of *The Twelve Conditions of a Miracle* brings a fresh and radical interpretation to Christ's thirty-two parables, revealing within them a practical blueprint for self-development.

The Hidden Parables is a complete retranslation of the parables used by Jesus of Nazareth to illustrate critical lessons about the nature of reality. Its simple, to-the-point analysis illuminates cosmological concepts, rendering them surprisingly accessible and practical, and highlights the actual techniques for self-development found in the words of Christ.

In *The Hidden Parables*, the thirty-two enigmatic parables spoken by Christ are meticulously retranslated retaining the expressiveness of the original Greek and giving the reader a literal understanding of the words of Christ. Michael's reconsideration unveils a hidden layer of meaning, which shows that the parables are not a random collection of stories, but a unified system of knowledge.

This integrated system of knowledge describes how to use the spiritual law of thought forms-or controlled intentions--to create more beneficial, more miraculous circumstances in our personal lives. The information it presents is clear and very useful. Moreover, this system bears an uncanny symmetry with many of today's leading-edge ideas from quantum physics. In *The Hidden Parables*, those aspects of Christ's words that are sometimes considered confounding are freshly revealed for their penetrating insights about human existence and the hands-on methodology the insights provide for greater self-understanding and for leading a more fulfilling life.
