Atlas of the Valley of the Kings: The Theban Mapping Project: Study Edition
The result of twenty years of work, the *Atlas of the Valley of the Kings* provides the first detailed surveyed maps and plans ever produced of one of the most famous World Heritage sites. From the tomb of Tutankhamun to the recently-discovered tomb of the sons of Ramesses II, all of the significant and accessible tombs in the valley are included. In this new one-volume study edition, the *Atlas* gives 1:200 plans, sections, and three-dimensional isometric drawings of each tomb, along with larger-scale maps of the entire Valley and background information on the work of the Theban Mapping Project and its surveying techniques. Of great value to archaeologists and conservators, the *Atlas of the Valley of the Kings* has already become a basic Egyptological reference.
