Math Mammoth Grade 3 Review Workbook

Maria Miller

Math Mammoth Grade 3 Review Workbook Maria Miller
Math Mammoth Grade 3 Review Workbook is intended to give students a thorough review of third grade math, following the main areas of Common Core Standards for grade 3 mathematics. The book has both topical as well as mixed (spiral) review worksheets, and includes both topical tests and a comprehensive end-of-the-year test. The tests can also be used as review worksheets, instead of tests.

You can use this workbook for various purposes: for summer math practice, to keep the child from forgetting math skills during other break times, to prepare students who are going into fourth grade, or to give third grade students extra practice during the school year.

The topics reviewed in this workbook are:

- addition and subtraction
- multiplication concept and tables
- clock
- Money
- place value with thousands
- geometry
- measuring
- division
- fractions

In addition to the topical reviews and tests, the workbook also contains many cumulative (spiral) review pages. The content for these is taken from Math Mammoth Grade 3 Complete Curriculum, so naturally this workbook works especially well to prepare students for grade 4 in Math Mammoth. However, the content follows a typical study for grade 3, so this workbook can be used no matter which math curriculum you follow.

Please note this book does not contain lessons or instruction for the topics. It is not intended for initial teaching. It also will not work if the student needs to completely re-study these topics (the student has not learned the topics at all). For that purpose, please consider Math Mammoth Grade 3 Complete Curriculum, which has all the necessary instruction and lessons.
