Bright and Beyond: Thinking

Pal Toys

Bright and Beyond: Thinking Pal Toys
Illustrated learning ideas on cards mean short, simple instructions, easy sorting, and quick visual cues to understanding the activity.

In the Thinking deck (for children 7 & up), you will encounter Word Play and Number Games, Codes and Ciphers, Abstract and Spatial Thinking, Patterns and Distinctions, Critical Thinking and Strategy! Little planning is required as most activities set up in moments with materials found right around the home.

We have had a lot of fun compiling these varied thinking activities, brain games, and puzzlers. Although hints and answers are provided where necessary, in most cases, success can be achieved through patient effort.

Genius has been defined as "an infinite capacity for taking pains." If this is true, then a thorough and meticulous individual of average intelligence is much more likely to achieve success than a careless, inattentive "genius."

At the bottom of the back side of most cards is an "extra credit" question that can be fun to research (for example, "What is the Enigma Cipher Machine?" and "What do a bear's paw and a double wedding ring have in common?")

"Bright and Beyond" decks have been recognized with numerous awards including "Dr. Toy’s 100 Best Children’s Products," and being voted #1 by Homeschool.com. With added endorsements from American Montessori Consulting, preschool directors, child development educators, and countless parents, customers can have the confidence that "Bright and Beyond" will meet their own high standards.

For less than 19-cents per idea, parents are provided with quality, interactive, back-to-basics play and learning activities. One small package provides a year’s worth of fun learning and play-time ideas. The primary goals of childhood are to grow, learn, and play. Learning through play is beautifully achieved with the activities in the "Bright and Beyond" decks.
