Metal-Organic Framework Materials (EIC Books)

Metal-Organic Framework Materials (EIC Books)

Metal-Organic Frameworks (MOFs) are crystalline compounds consisting of rigid organic molecules held together and organized by metal ions or clusters. Special interests in these materials arise from the fact that many are highly porous and can be used for storage of small molecules, for example H_2 or CO_2. Consequently, the materials are ideal candidates for a wide range of applications including gas storage, separation technologies and catalysis. Potential applications include the storage of hydrogen for fuel-cell cars, and the removal and storage of carbon dioxide in sustainable technical processes. MOFs offer the inorganic chemist and materials scientist a wide range of new synthetic possibilities and open the doors to new and exciting basic research.

Metal-Organic Frameworks Materials provides a solid basis for the understanding of MOFs and insights into new inorganic materials structures and properties. The volume also reflects progress that has been made in recent years, presenting a wide range of new applications including state-of-the art developments in the promising technology for alternative fuels. The comprehensive volume investigates structures, symmetry, supramolecular chemistry, surface engineering, recognition, properties, and reactions.

The content from this book will be added online to the *Encyclopedia of Inorganic and Bioinorganic Chemistry*: http://www.wileyonlinelibrary.com/ref/eibc

From reader reviews:

Destiny Hunt:

Have you spare time for the day? What do you do when you have considerably more or little spare time? Yep, you can choose the suitable activity to get spend your time. Any person spent their own spare time to take a go walking, shopping, or went to often the Mall. How about open or even read a book allowed Metal-Organic Framework Materials (EIC Books)? Maybe it is for being best activity for you. You know beside you can spend your time along with your favorite's book, you can more intelligent than before. Do you agree with it has the opinion or you have other opinion?

Randall Barbee:

Spent a free a chance to be fun activity to accomplish! A lot of people spent their spare time with their family, or their particular friends. Usually they carrying out activity like watching television, about to beach, or picnic inside the park. They actually doing same every week. Do you feel it? Do you need to something different to fill your free time/ holiday? Could possibly be reading a book could be option to fill your free time/ holiday. The first thing that you'll ask may be what kinds of guide that you should read. If you want to try out look for book, may be the book untitled Metal-Organic Framework Materials (EIC Books) can be excellent book to read. May be it may be best activity to you.

Phillip Herzog:

Do you have something that you want such as book? The guide lovers usually prefer to pick book like comic, quick story and the biggest some may be novel. Now, why not hoping Metal-Organic Framework Materials (EIC Books) that give your enjoyment preference will be satisfied through reading this book. Reading practice all over the world can be said as the method for people to know world much better then how they react toward the world. It can't be claimed constantly that reading routine only for the geeky particular person but for all of you who wants to be success person. So , for all of you who want to start looking at as your good habit, you are able to pick Metal-Organic Framework Materials (EIC Books) become your own personal starter.

Beverly Bell:

As a pupil exactly feel bored for you to reading. If their teacher questioned them to go to the library as well as to make summary for some publication, they are complained. Just little students that has reading's spirit or real their interest. They just do what the professor want, like asked to go to the library. They go to right now there but nothing reading significantly. Any students feel that studying is not important, boring and can't see colorful pics on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this Metal-Organic Framework Materials (EIC Books) can make you feel more interested to read.
